IN THE SPOTLIGHT

Michelle Griffin

WEST MIDLANDS

Michelle Griffin

An award-winning hair extension stylist and educator, Michelle Griffin has always had a passion for hair extensions and by the age of 22, she'd bought her first hairdressing salon – the Michelle Griffin Hair Extension Salon and Academy.

Michelle spent years building up her hairdressing experience and cemented her career with hair extensions by working for some of the UK's leading hair extension companies. As well as coordinating hair extension education, she has directed photo shoots, trained art teams, and trained salons worldwide.

After years of teaching and career progression, Michelle felt the need to develop her creativity and love of education, which led to the opening of her own salon and specialist hair extension training academy. Continuing to investigate and create new, inspirational methods of attachment, Michelle has designed her own NVQ-standard training courses and, as Academy Director, she's always on hand to offer her students continual advice and support with their work.

Active within the Fellowship for British Hairdressing, Michelle's an enthusiastic Platform Artist and works closely with local organisations and the media, frequently participating in fashion shows and charity events.

Having travelled the globe with her work, Michelle enjoys sharing her skills and knowledge with various countries and cultures, and her worldly manner has broadened her experience even further.
